

**BEST PRACTICES****Best Practice No. 01**

<b>1 Title of the practice:-</b>	<b>Organization of Blood Donation camp by N.C.C. and N.S.S. Units of the college.</b>
<b>Objective</b>	<b>To create awareness amongst the students for blood donation for the welfare of the society at large.</b>
<b>Context</b>	Our college is located in semi-urban/urban area in Bhandara district of Maharashtra state. This region is poorly facilitated to medical aids. NO other Govt. Hospitals other than SubhashChandra Bose Govt. Hospital,Tumsar is providing medical aids to the local poor people of this region. In emergency cases like, caesarean operations, sickle cell anaemia, blood cancer, bleeding disorder, hereditary blood abnormalities, chronic anaemia etc, people are dependent on this hospital or search for another alternatives. Since, most of the people are financially poor, they are dependent on Government hospital. But due to limited availability of blood units, the government hospital can only provide limited services of blood transfusion .This results in casualties or the patients are referred to District hospital where they either get required blood donors or they have to purchase blood from private blood banks. In such situations the sufferers are in dilemma. Keeping in mind these difficulties of the local populous , college comes up with the practice of donating blood to the government hospital and the blood group directory of student donors is maintained by the N.C. C. department. The needy persons of the area contact the NCC officer for the list of blood donors. This activity, in association with the college NSS unit, has been continued since last fifteen years. In past, many of our students have donated blood or made available their blood donation card to needy persons.
<b>The practice</b>	In the beginning of the academic session , students are enrolled in N.C.C. and N.S.S. units after following the procedure. During routine classes cadets and volunteers are made aware of the importance of the blood donation . Students are told that <b>blood donation is our duty and our body does not get affected if we donate blood and the body can repair the loss within few days. They are also told about the various health benefits of blood donation such as, it prevents hemochromatosis , cancer activity and maintains healthy heart , liver, and BMI and also stimulates blood cell production.</b> At the mid of the session , an appeal is made to the students for blood donation. On the eve of either the <b>Independence day or the Republic day</b> or any other suitable date given by the district blood bank unit of the government hospital. Sometimes, the college organises blood donation camp in association with the NGOs and college alumni association . The cadets, volunteers ,students and the interested teachers or persons donate blood in the camp in the college premises.

	<p>The NCC officer prepares a list of blood donors and blood group along with their contact details in the form of blood group directory and keep ready for needy person. Blood donation cards are also made available to the needy persons. This practice has been continued since last fifteen years. In last five years college students have donated about 157 units of blood and helped many needy people either by personally donating blood or providing their blood cards.</p>
<b>Evidences of the success</b>	<ul style="list-style-type: none"> <li>✓ More numbers of students , teachers ,members of NGOs and alumni have taken part in blood donation camp in the college .</li> <li>✓ This practice has been continued since last fifteen years.</li> <li>✓ In urgency local persons approach the NCC and NSS officers for blood donors.</li> </ul>
<b>Problem encountered and Resources required</b>	<p>While organising blood donation camp ,the college has to depend on the dates given by the govt blood bank department. Blood bank has limited receiving capacity, though many students are ready to donate blood. The college provides hall, bed, mattresses, and refreshment.</p>

## BEST PRACTICES

### Best Practice No. 02

<b>1 Title</b>	<b>Organisation of students poster exhibition</b>
<b>Objective</b>	<b>To develop presentation skill amongst the students. To inculcate competitive habits amongst the students for examination and competition.</b>
<b>Context</b>	While teaching and learning process in the college ,it is observed that many students know the thing better way but they are not able to expresses to the understandable levels to others. Since in our college most of the students are from the villages and small towns and have no skill of expression or they may fear. Hence, we have decided to improve the communication skill of the college student. There are many means of communication, among them, poster presentation is one of the most powerful and widely accepted means of disseminating or communicating or presenting the views or ideas to the viewers. We have decided to use the poster presentation as a tool for improving the communication. The college make use of Art, Commerce and Science associations for implementing this practice more effectively, so that, our students in near future would communicate or present nicely in examinations or in any presentations.
<b>The practice</b>	In the beginning of the academic session , the college staff council appoints one of the teaching staff members as the convener/Teacher In-charge of the respective association . After finalising the admission the convener of each association organises poster exhibition. In addition to this many other poster competition were also organised by the college or allowed our students to takes part in different college poster exhibition cum competition so that our students are exposed more and more to such activities. The college is providing such practice to our students since last five to six years.
<b>Evidences of the success</b>	With the introduction of such activity through associations ,and other means many students have expressed their latent talent and showed their interest in participation and some come up with prizes . Followings are some examples as evidences of success - <ul style="list-style-type: none"> <li>✓ In <b>Avishkar -2014</b> organised by D.B. Science college , Gondia , our student Dinesh Lalwani was selected for Avishkar stage III level on <b>Polymer Note Currency</b>.</li> <li>✓ In <b>Avishkar -2015</b> organised by our college, our students did well and won -----prizes.</li> <li>✓ Students' participation has been increasing year after year.</li> </ul>
<b>Problem encountered and Resources required</b>	While organising functions/activities or events, students face problems , like short of time for implementation ,since their academic curriculum do not permit them to give more time for the such extracurricular activities .
