

**S.N. Mor College of Arts and Commerce and Smt. G.D. Saraf
Science College, Tumsar-4419012, Dist. Bhandara (MS)**

Department of Zoology

(‘AZooBa’- Association of Zoology Bachelors)

Report: ‘Health Checkup Programme’

(3rd October 2024)

Most of the students studying in this college come from poor families of nearby villages. Some of them are under weight, having vitamin and nutrient deficiency. Most of them even do not know their height, weight, BMI, blood group and blood pressure. Keeping all this in mind, the department of Zoology has organized health Checkup programme for science students and college staff on **3rd October 2024** in the zoology laboratory. In this health check camp, students of B.Sc. semester V checked the height, weight, BMI, Blood pressure and Blood groups of students and staff of the college. More than **134 students** of science faculty (including **16** teaching and non-teaching college staff) registered for their health checkup during this camp.

Students checking blood pressure and blood groups of staff and students
