Conclusion: The school is residential Ashram School. It means that students are in academic ambience for 24 hours every day. Majority of students secured marks in the middle range, that is, 11 to 15 = 19 out of 42 = $19/42 \times 100 = 45\%$. The students are from villages and are mainly tribal- Definitely, their knowledge of English is satisfactory. No student

attained marks above 21, which means above 80%. The fact is really deplorable and much needs to be done.
